Summary

Neiko Calipers have thicker jaws than most. I tried several designs, but gave up and made my own.

Most of the ones I've found do fit my Harbor Freight calipers, but Neiko have thicker jaws and I couldn't find a set to fit (either of my 2 pairs of) Neiko calipers so I made these.

Designed in Vanilla Autocad 2027.

Printed PETG 100% infill

73 de K4ZX
