A new 3D figurine generated by AI, a Chibi DJ Gorilla.

I print my models on a slightly ageing printer. I try to find the best quality/time ratio for my prints. I print these models in fairly small formats, and the quality of the camera highlights any flaws in macro mode. The photos are for illustrative purposes only, to show that the model is perfectly printable.

Do not forget to LIKE, to download and to upload your makes, thanks !
