Logitech MX Mechanical Shortcut Caps / Physical Macro Overlays

Transform your **Logitech MX Mechanical** keyboard with physical hardware shortcut caps! These 3D-printable overlays clip directly onto

your existing keycaps, allowing you to trigger multi-key combinations with a single press.

No keyboard modifications, software, or soldering required — just place them on your keys and press!

Included Shortcut Caps

Designed for the **ANSI / International Layout**, with separate optimized versions included for both **Windows** and **macOS**:

- **Undo** (Ctrl/Cmd + Z)
- **Cut** (Ctrl/Cmd + X)
- **Copy** (Ctrl/Cmd + C)
- **Paste** (Ctrl/Cmd + V)

Variants for both the **left** and **right** sides of the keyboard are included in the files!

& Who is this for?

1. **Productivity Enthusiasts & Power Users:** Ideal for anyone performing repetitive tasks, data entry, editing, or those who frequently forget complex shortcut combinations.
2. **Accessibility & Assistive Tech:** A great aid for individuals with physical or motor disabilities, arthritis, or limited dexterity who find it difficult or painful to hold down two keys simultaneously.
3. **Kids & Young Learners:** Perfect for children who are learning to use computers, school software, or creative apps, helping them trigger common shortcuts easily without struggling with awkward finger stretches on full-sized keyboards.

Print & File Settings

File Formats Included:

- **.3MF Files:** Pre-configured and ready to slice/print instantly.
- **.STEP Files:** Fully editable CAD files provided so you can adapt, customize, or tweak the designs to your liking.

Recommended Print Settings:

- **Orientation:** Print upside down (**text facing down onto the build plate**). This ensures crisp text quality and crisp top surfaces.
- **Supports: NO supports needed** when printed upside down!
