updated 10. 10. 2026 | published 10. 10. 2026

Summary

I added a circular pattern of cutouts to the solid spool and uploaded the .f3d file.

[3D Printers](#) > [Accessories](#)

Tags: [reuseable](#) [polymakermasterspool](#)

I appreciate the design of the original, but prefer this aesthetic.

I have uploaded the .f3d file from which the .3mfs were exported, to help others who would like to modify the pattern.

I have not uploaded a copy of the RFID tag holder.
The original part should fit this spool, since I did not make any change to that slot.

This remix is based on

Polymaker Reusable Master Spool for Refill
