Summary

This is to improve and secure tube joint. Used in heat pump drainage.

Tags: [plumbing](#) [drainage](#) [heatpump](#)

Used PETG. Recommend 100% infill, used 40% though. Other part is conical and I printed it flipped 180 degrees to ensure sharp edge. You also need a 4 mm x 50 mm bolt for installation.

Two models. The opened one to enable installation after heater cable in place.
