Summary

A top cover / endcap for the K2 Singlerail 36. Hides the last silver part of the rail. Different lengths.

I designed another top cover / endcap for the K2 Singlerail 36 system. I have different end clamps that require more space in the top of the rail. I have various lengths to save extra cutting of the rail. Just snap it into place and it will hide the silver part.

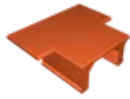

Print it with the flat part down and use ASA or other UV resistant filament.

If you like my designs, you can buy me a coffee on Ko-fi!
