Samsung Galaxy S26 Ultra & Galaxy Watch Ultra – 2-in-1 Charging Station

A modern, minimalist 2-in-1 charging station designed for the Samsung Galaxy S26 Ultra and Samsung Galaxy Watch Ultra.

This 3D printable stand combines dedicated spaces for your smartphone and smartwatch in a single functional design. Perfect for keeping your desk, nightstand or workspace organized.

Key Features

- **2-in-1 design:** Holds a smartphone and smartwatch together.
- **Wireless charging ready:** Designed for separate Qi-compatible phone and dedicated Galaxy Watch charging modules.
- **Angled smartphone holder:** Convenient viewing angle for notifications and everyday use.
- **Space-saving design:** Combines two charging locations into one stand.
- **Minimalist appearance:** Suitable for modern desk and bedside setups.
- **Functional 3D print:** Designed as a practical everyday accessory.

Compatibility

Designed for:

- Samsung Galaxy S26 Ultra
- Samsung Galaxy Watch Ultra series

Other devices and charging modules have not been tested.

Model Dimensions

- Width: approximately 190 mm
- Depth: approximately 86.8 mm
- Height: approximately 114.7 mm

Recommended Print Settings

Setting	Recommendation
Printing technology	FDM / FFF
Material	PLA or PETG
Nozzle diameter	0.4 mm
Layer height	0.20 mm
Infill	20% Gyroid

Walls / Perimeters	4
Top / Bottom layers	5 / 5
Print scale	100%
Supports	As required by orientation
Brim	Optional, 5 mm

These settings are recommendations and may require adjustment depending on the printer, filament and print orientation.

Required Accessories

- Compatible Qi wireless charging module for the smartphone
- Dedicated compatible Galaxy Watch charging module
- Appropriate USB power supply and cables

Important: Charging electronics, cables and power adapters are not included in the STL download.

Please check the dimensions and compatibility of your charging modules before printing.

Additional Information

- Download format: STL
- Model type: Functional accessory
- Assembly: Installation of charging electronics required
- Intended use: Indoor desktop or bedside charging station

For long-term use, PETG is a good option where additional temperature resistance is desirable. Make sure charging modules have appropriate ventilation and do not overheat.

Share Your Print!

If you print this model, please share a photo of your finished setup.

Feedback, ratings and suggestions for future improvements are always appreciated.

Happy printing!
