Summary

A compact 8-position vial rack designed to hold 30 mm diameter vials upright for convenient storage, organization

Learning > Chemistry & Biology

Tags: organizer holder storage 30mm lab vial rack laboratory

A practical, space-efficient vial rack designed to accommodate eight vials with a diameter of 30 mm. The rack keeps vials upright and neatly organized, making it suitable for sample storage, laboratory organization, and general-purpose vial handling.

Designed for 3D printing, this model can be printed on standard FDM 3D printers. Choose a suitable filament based on your intended application.

Note: This is a 3D-printed organizational accessory, not certified laboratory equipment. Verify vial fit and material compatibility before use.
