There are three sizes and styles to choose from.

- Jeep Seatbelt Silencer 1 is the smallest of the three.
- Jeep Seatbelt Silencer 2 is the largest
- Jeep Seatbelt Silencer 3 is medium sized.

I printed the 3MF files with PETG filament and included the STL files for your choice of filament. No supports are required.

The PETG filament helps to prevent warping from intense sun rays in your vehicle. These are public domain files I exrtracted from a rival site, I will mark them as such. Sell away.

These are better gifts than ducks, ifyouaskme.

Oh yeah, These are not actually recommended for use in a vehicle. They are keychains and should only be used in farm trucks or other equipment that does not leave the property.
