Summary

The PSU wouldn't fit into the mainframe.stl file due to its corners. I fixed this.

[Gadgets](#) > [Computers](#)

The PSU wouldn't fit into the mainframe.stl file due to its corners.
edit v2 : Also, the PSU power socket didn't fit either, so I fixed that too. I tried it with the 3 PSUs I have and they all fit without any issues, sockets included.
