This pre-painted multi-color 3D model depicts Link in a dynamic battle stance drawing the Master Sword with the Hylian Shield raised, standing on a circular stone temple base. Sliced for standard 0.4mm nozzles at a 0.2mm layer height, 2 wall loops, and 15% Gyroid infill, it requires automatic tree supports under the sword blade, shield rim, tunic folds, and scabbard overhangs to ensure clean multi-filament AMS execution.

Note: The included colored pictures features a reduced-color layout meant to serve as a guide for painting. **There is only an Stl file.**
