Karla - Night in the Woods Figurine is a video game character figurine 3d model made for collectors and fans of Night in the Woods. Get a detailed 3d printable character for display, desktop decoration, tabletop scenes, and dioramas, or as a gift for gaming fans and cosplay prop styling. The file is a print-ready model prepared in a slicer before publishing, so you can start confidently with your first layer. Sliced with 0.20 mm layer height, a 0.4 mm nozzle, 15% grid infill, 2 wall loops and PLA (supports: tree(auto)). Profile prepared on a Bambu Lab A1. Scale - 1:10. You also get the 3MF project file, not just the raw mesh.
