Chrysler 300 Letter Series is a 3d printable scale model for display and diorama use, made to help you create a realistic Chrysler 300 themed set with letter style styling. This stl is ideal for car collectors, model builders, and anyone looking to add a standout vehicle display piece to a shelf, tabletop scene, or custom garage diorama. The file is print-ready, prepared and organized so you can load it into your slicer with confidence before printing. Sliced with 0.20 mm layer height, a 0.4 mm nozzle, 15% grid infill, 2 wall loops and PLA (supports: tree(auto)). Profile prepared on a Bambu Lab A1. Scale - 1:10. You also get the 3MF project file, not just the raw mesh.
