3-Slot Earbuds Case Organizer

A simple desktop organizer designed to hold **three wireless earbuds charging cases upright and easy to access.**

I made this to keep multiple A60 pro earbuds cases from moving around the desk or disappearing under other items. Each slot supports the case loosely. making it easy to see, grab, and put back in place.

The compact design keeps three cases together while taking up very little desk space.

Features

- Holds up to **3 wireless earbuds charging cases**
- Loose slots for easy access
- Compact desktop footprint
- Stable freestanding design
- Prints as a single part

- No supports or hardware required
- Suitable for PLA, PETG, or similar materials

The pictured version is sized for the cases shown, but the model can be scaled if needed for slightly different earbuds cases.

Useful for a desk, nightstand.
