Summary

Back Plate for Jura Coffee Grounds Container (Jura E8, E4, E6 – Part No. 74635)

Household > Kitchen

Tags: coffeemachine jura

A replacement back plate designed for the coffee grounds container / waste bin used in Jura automatic coffee machines (compatible with Jura E8, E4, E6, and similar models using part number **74635**).

If the original plastic clip or mounting tab on your coffee grounds container snapped or wore out over time, this model lets you print a direct replacement part without having to buy an entirely new tray or container assembly.

Features

- **Perfect Fit:** Designed to match the factory geometry and mounting dimensions of Jura part **74635**.
- **Cost Effective:** Quick and cheap repair to restore your coffee machine to full working order.

- **Easy Installation:** Drops directly into place like the original component.

Print Settings & Recommendations

- **Material: PETG** does the job, **PLA** can work for light use, but may warp over time with hot water/steam.
- **Layer Height:** 0.20 mm
- **Infill:** 20% – 30% (Grid or Gyroid)
- **Perimeters/Walls:** 4 for extra structural strength on stress points
- **Supports:** not required
