Apple TV Siri Remote & Samsung TV Remote Dual Stand

A compact desktop stand designed to organize two remote controls in one convenient place.

This original Yutaka3DLab design features two dedicated openings: one for the **Apple Siri Remote (3rd generation, 2022)** and one for a compatible **Samsung TV Remote**.

The stepped design keeps both remotes upright and easy to reach while taking up minimal space on a TV console, desk, shelf, or coffee table.

Features

- Dedicated slots for Apple Siri Remote and Samsung TV Remote
- Compact, space-saving desktop design
- Stable base with 40% infill recommended for added weight
- Contoured openings designed around the remotes
- Smooth, rounded edges and decorative accent lines
- No assembly, screws, or adhesive required
- Original design created in Fusion 360

Compatibility

Apple

- Siri Remote — 3rd generation (2022)

Samsung

- Designed for the Samsung TV Remote geometry shown in the photos
- Intended for compatible BN59 / TM2050-style remotes

Please compare your remote's shape and dimensions with the reference photos before printing. Compatibility with every Samsung remote is not guaranteed.

Dimensions

- Length: 85 mm (3.3 in)
- Width: 55 mm (2.2 in)
- Height: 50 mm (1.97 in)

Recommended Printing

- Technology: FDM / FFF
- Material: PETG
- Layer height: 0.20 mm
- Infill: 40% for a heavier, more stable base
- Orientation: Flat bottom on the build plate
- Supports: Not required for the intended orientation

The design was developed for desktop use. PETG is the recommended material; other materials may require adjustments to achieve the desired fit and finish.

Files Included

- STL model for slicing
- 3MF file, if included in the download
- README.txt

- Printing_Settings.txt
- LICENSE.txt

Important

This is a **digital 3D-printable model**, not a physical product.
