Spiral Christmas Tree - Decoration by Day, Glowing Lantern by Night!

Add a little Christmas magic to your home with this elegant spiral Christmas tree featuring a beautiful star on top. Printed in 3D, it looks great as a simple decorative ornament during the day and transforms into a warm, glowing lantern when you place a small LED light inside.

PRINT SETTINGS

Do not modify the recommended print settings! The model is designed to be printed with the following settings:

Infill: 0%
Bottom layers: 0
Supports: Enabled
Support type: Tree

These settings are essential for achieving the intended shape and allowing the light to shine through the model. Changing them may affect the final result.

Lighting tip: Use a small battery-powered LED light. Do not use a real candle or an incandescent bulb. The model is decorative and should only be illuminated with a cool-running LED.

A simple, elegant Christmas print that can be used as both a festive ornament and a cozy ambient light. Perfect for your own home or as a handmade holiday gift!

Happy printing and Merry Christmas!
