A freestanding 3D logo from The Last of Us, perfect for your gaming desk or display shelf.

How to print (No AMS needed):

- **Supports:** None (100% support-free).
- **Orientation:** Print flat on the build plate.
- **Color Swap:** Start printing with black filament. Add a pause in your slicer at the exact layer where the text starts, and swap to white filament.

- **Smooth Finish:** Turn on the "Ironing" feature for the topmost surface in your slicer settings to make the white text perfectly smooth.
