Legolas Lord of the Rings Figurine is a detailed character 3d printable model for fans of the Middle-earth elf archer, made for collecting and display. You can print it as a tabletop collectible, desk ornament, or centerpiece for a lotr diorama, cosplay shelf, or home fantasy display. The model is print-ready and prepared in a slicer before publishing so you can start confidently from the first layer. Sliced with 0.20 mm layer height, a 0.4 mm nozzle, 15% grid infill, 2 wall loops and PLA (supports: tree(auto)). Profile prepared on a Bambu Lab A1. Scale - 1:10. You also get the 3MF project file, not just the raw mesh.
