Summary

Buckshot Centershot Treestand Cable Silencers, wedges to lock the cable in

[Sports & Outdoor](#) > [Outdoor Sports](#)

Tags: [tpu](#) [hunting](#) [treestand](#)

I lost the original rubber cable wedges (AKA Cable Silencers) for my Buckshot Centershot Treestand, so I decided to design my own replacement in Tinkercad.

The design turned out to work well, providing a simple, functional replacement for the missing originals. I also sanded a slight taper into the front edge of each printed wedge to make it easier to start them into position.

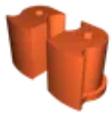

Print Details

- **Printer:** Flashforge AD5X
- **Material:** 85A TPU
- **Walls:** 4
- **Infill:** 15% gyroid

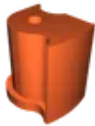

- **File format:** 3MF
- **Included:** Both left- and right-side wedges

This is a quick, practical replacement for anyone who has lost their original cable silencers and has access to a 3D printer capable of printing flexible TPU.
