⚙️ **PEPSI RETRO BOTTLECAP COASTER, STORAGE & WALL ART**

Add a classic, oversized pop-culture touch to your desk, coffee table, or wall with this 3D-printable **Pepsi Bottle Cap!** Featuring choice of the iconic logo on just the underside or both the top and bottom, this versatile piece can be used in multiple ways around the house.

⚙️ **Key Features**

- **Multi-Functional Design:** Use it as an oversized coaster for wide-base cans, a catch-all tray for coins, keys, and everyday carry items, or hang it up as a unique piece of wall art.
- **Double-Sided Logo:** Features the classic **Pepsi** logo embossed on both the top and bottom surfaces for a clean look from any angle.
- **Built-in Hanging Hole:** A small integrated hole in the top makes wall mounting quick and easy.

⚙️ **Printing Recommendations**

- **Orientation:** Print flat on the build plate (supports generally aren't needed depending on your bridging settings, but check your slicer preview).
- **Infill:** 15% to 20% infill provides a sturdy, durable feel suitable for a tray or coaster.
- **Perimeters/Walls:** 3+ walls recommended to ensure clean definition on the embossed logo and smooth edges.

⚙️ **How to Customize Colours**

1. Open the project in **You're Slicer**
2. In the left panel, switch from the **Global** tab to the **Objects** tab.
3. Expand the coaster assembly to view individual parts.
4. Select individual objects/parts and assign your desired filament colour slot
(or right-click → **Change Filament**).

⚙️ **Note**

- **Adhesion:** Please ensure your bed is clean and well-levelled for the perfect first-layer finish.
- If you enjoy this print, please consider sharing a photo and leaving a comment and like!
- I cant wait to see how yours turns out!
