Decorative balcony for Skadis,

Three different sizes, in the balustrade style

Created for my daughter for her Skådis pegboard.

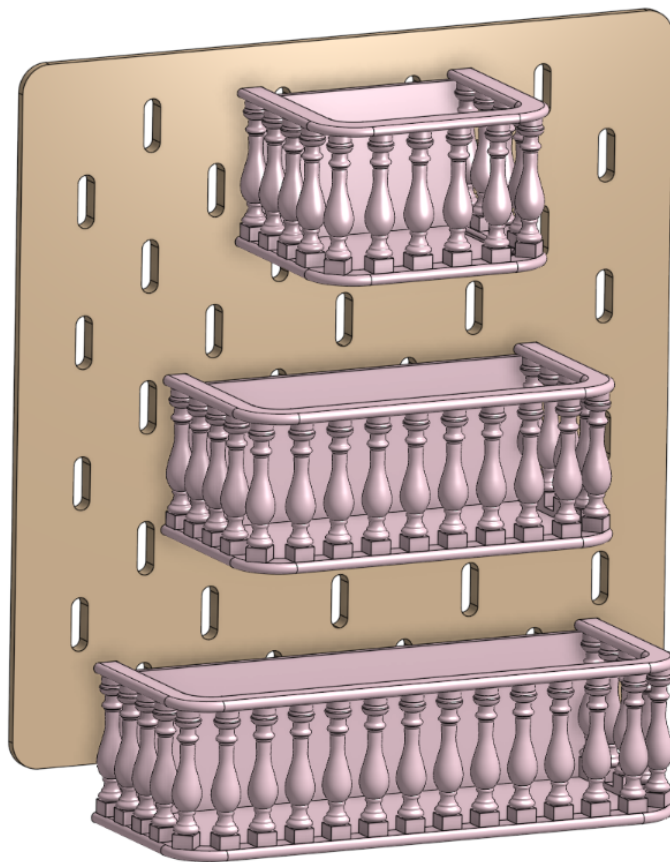

Printing is simple: first the bottom part, then attach the handle and insert the hooks.

Prusament PLA Sakura Pink filament, a very pleasant color.

Please adhere to the model's license terms. It is becoming increasingly common for my models to be stolen, distributed without permission, and resold

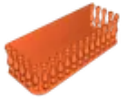

The small and large balconies are currently being printed.
