[spooky](#) [seasonal](#)

Bat decoration perfect for Halloween!

The model is available in 4 sizes and can be scaled. After printing, while the model is still warm, gently bend the wings at the marked points to give the bat a 3D shape.

Attach it to walls, windows, doors, or other surfaces using double-sided adhesive tape. An easy-to-print decoration to create a spooky Halloween atmosphere!

No supports required. Be careful when bending the model while warm.
