Add a warm, cozy touch to your Christmas tree with this **cable-knit inspired Christmas bauble**.

The entire surface is covered with detailed raised knitting patterns, combining **large braided cables, smaller knitted stitches and elegant vertical textures**. The result looks remarkably similar to a miniature ornament made from soft knitted wool.

Its clean and elegant design makes it a perfect addition to **Nordic, Scandinavian, rustic and cozy Christmas decorations**. The integrated top cap and hanging loop make it ready to hang directly on your Christmas tree.

The simple shape also makes it beautiful in a wide range of colors, from classic white and cream to natural beige, red, green or winter blue.
