Design Concept

The Pumpkin Scarecrow figurine is designed with whimsy and Halloween themes in mind, perfect for decorations or as a playful keychain accessory.

The exaggerated facial expression and detailed outfit add personality and a seasonal charm.

Purpose

This 3D model can serve as a festive decoration for the Halloween season or as a unique accessory when converted into a keychain. It's small enough to be portable, yet detailed enough for display.

Printing Suggestions

Printed with PLA or PETG, this model benefits from a high-detail setting to capture the intricate designs of the facial and clothing features. Supports may be required for optimal detail preservation.

Assembly Instructions

No assembly is required for this model. Once printed, it can be directly used, or a keychain ring can be attached if preferred.

I printed in PLA
