updated 15. 10. 2026 | published 15. 10. 2026

Summary

Hooks that snap onto a car headrest post to hang shopping bags, handbags or a backpack.

[Hobby & Makers](#) > [Automotive](#)

Tags: [car](#) [openscad](#) [headrest](#) [nosupports](#) [carhook](#) [baghook](#) [carorganizer](#)

Snap one onto the metal post of a car headrest and hang shopping bags, a handbag or a backpack behind the seat, off the floor. The clip springs round the post, and the hook arm ends in a curl so handles can't slide off.

DETAILS

- The plate has four: two for 12-13 mm posts and two for 14-15 mm posts. Measure yours.
- 14 mm thick, 42 mm arm.

- Prints flat with no supports, layers along the hook. Bambu Studio: 55 min, 27 g for four.
- Use PETG or ASA: PLA can soften in a hot car.

CUSTOMIZE (OpenSCAD)

Post sizes, thickness and arm length.

Designed with AI assistance (OpenSCAD). Rendered images; not printed or tested in a car yet.
