Summary

Support sliders for bottom panel

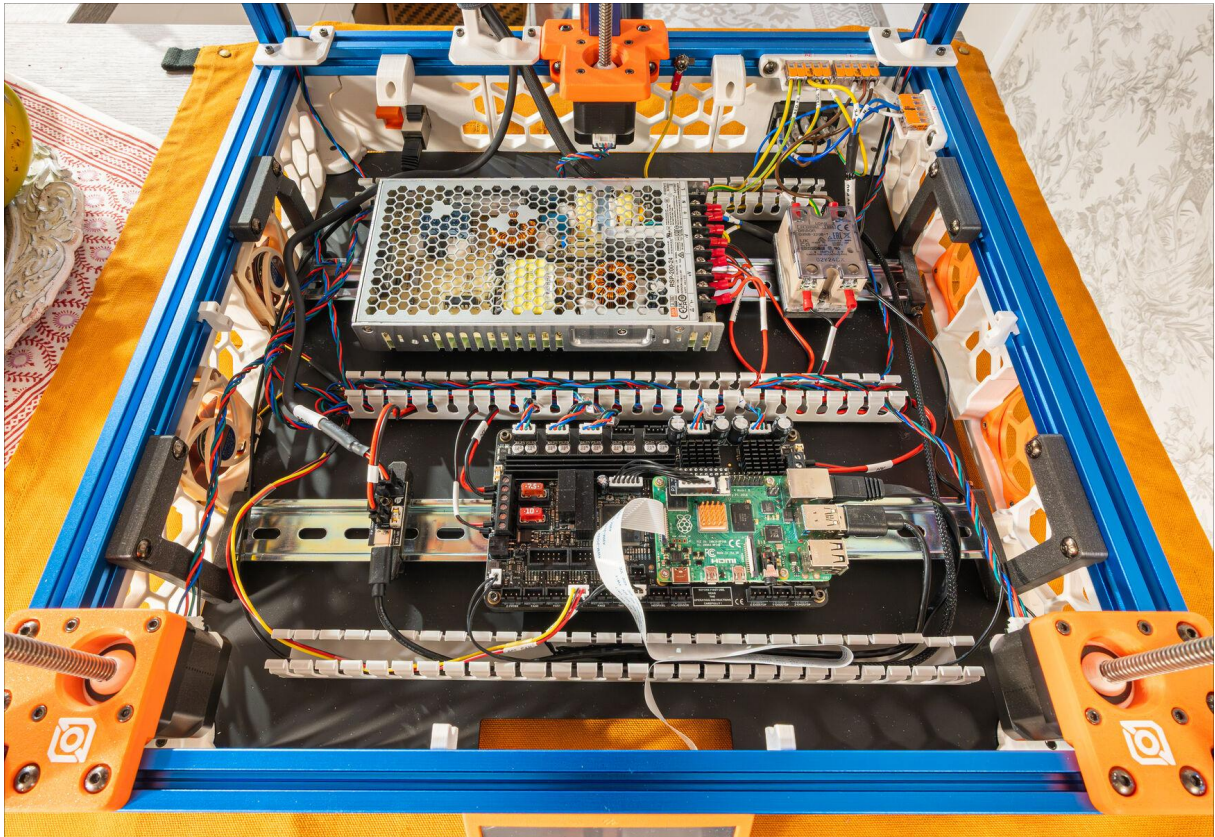

[3D Printers](#) > [Voron Parts & Upgrades](#)

Tags: [slider](#) [bracket](#) [panel](#) [voron](#) [invertedelectronics](#)

When using Inverted Electronics Mod. It can be nice to have support sliders for bottom panel for easier fitting. Can be tight fit between the corner cable outlets and Wago bracket.

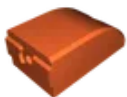

Long one is preferred if having the Wago bracket. Otherwise the short one will suffice.

Just fit two of these on rear extrusion using M3x14 screws and M3 roll-in nuts or T-nuts.
