Ready for trick-or-treating: a ribbed jack-o'-lantern pail with a carved face and a handle that clips into the rim. Fill it with sweets, use it as a table bowl, or put an LED tea light inside.

DETAILS

- 130 mm across, 105 mm tall, about 150 mm to the top of the handle.
- The handle's pegs push into holes in the neck; the arc holds them in.

- Prints with no supports: the base flares out at 45 degrees, the eyes, nose and mouth have pointed tops and the teeth point up, and the handle prints flat. Bambu Studio: 2 h 26, 95 g.

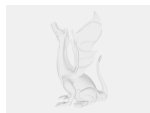

- LED tea lights only, never a real candle.

CUSTOMIZE (OpenSCAD)

Diameter, height, wall thickness, and whether to carve the face.

Designed with AI assistance (OpenSCAD). Rendered images; not printed yet.
