A full checkers (draughts) set: an 8 x 8 board with raised dark squares and 24 pieces that stack two high to crown a king. The raised squares mean you can print the board in two colours on any printer: pause and swap filament at the layer where the squares start.

DETAILS

- Board 192 x 192 mm with 22 mm squares; pieces 18 mm across with a recess on top so a king sits snugly.

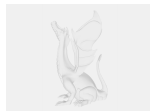

- Prints flat with no supports.
- Bambu Studio: board 2 h 55, 111 g; pieces 1 h 3, 25 g for all 24. Print 12 pieces in each of two colours.

CUSTOMIZE (OpenSCAD)

Square size and board thickness.

Designed with AI assistance (OpenSCAD). Rendered images; not printed yet.
