Corn on the cob holders: four pairs of little corn-shaped handles, each with two pointed prongs. Push one into each end of a hot cob and eat without burning your fingers or getting buttery hands. Handy for barbecues and summer dinners.

DETAILS

- Each handle is 30 x 20 mm with two 14 mm prongs.
- Prints with no supports: the handles stand on their bottoms with the prongs pointing straight up.

- Bambu Studio: 1 h 3, 24 g for all eight.
- Use a food-safe filament (PETG works well), wash by hand, and keep away from small children: the prongs are sharp.

CUSTOMIZE (OpenSCAD)

Number of pairs and prong length.

Designed with AI assistance (OpenSCAD). Rendered images; not printed yet.
