[Household](#) > [Home Decor](#)

Design Concept The Medieval Square Tower Ring Holder draws inspiration from historical castle towers, offering an elegant solution for organizing rings while serving as a stylish decoration. **Usage** This model is designed to hold and display multiple rings. It is ideal for personal use on dressers or as a decorative piece for jewelry stores, enhancing visual appeal while maintaining functionality. **Printing Advice** For optimal results, print using a resolution of 0.1-0.2mm layer height. A 20% infill is recommended to ensure durability without wasting material. **Supports needed** due to the tower's edges, I would recommend trees. **Assembly Instructions** There is no assembly required. The tower is a single, solid piece that can be immediately used after printing.
