Tags: [pig](#) [kids](#) [gift](#) [savings](#) [piggybank](#) [openscad](#) [moneybox](#) [nosupports](#) [coinbank](#)

A chubby pig money box: coin slot on the back, a screw-out plug underneath so you can get the savings out without breaking it, plus snout, ears, eyes, stubby legs and a little tail. A nice gift for kids learning to save.

DETAILS

- About 100 x 80 x 63 mm; the slot takes coins up to 32 mm (all UK, euro and US coins).
- Prints with no supports: the body is cut flat where its sides reach 45 degrees, the inside has a pointed roof instead of a flat ceiling, the snout's

underside slopes back at 45 degrees, and the plug's countersunk cap and rounded thread never lean past 45 degrees. Unscrew the plug with a coin.

- Bambu Studio: 2 h 11, 69 g for the pig and plug.

CUSTOMIZE (OpenSCAD)

Body length, wall thickness and the plug's thread clearance.

Designed with AI assistance (OpenSCAD). Rendered images; not printed yet.
