updated 15. 10. 2026 | published 15. 10. 2026

Summary

A little present box with ribbons and a bow, and a slot that holds a gift card or folded cash standing up.

Tags: [christmas](#) [money](#) [present](#) [gift](#) [giftcard](#) [openscad](#)
[xmas](#) [nosupports](#) [giftcardholder](#)

A nicer way to give a gift card than a plain envelope: a little Christmas present box with ribbons and a bow, and a slot in the top that holds the card standing up so it peeks out. Works for folded cash too, and makes a nice desk ornament afterwards.

DETAILS

- 100 x 31 x 42 mm. The slot fits standard 85.6 mm cards and is 34 mm deep, so 20 mm of the card shows.

- Prints with no supports: the box stands on its base, the slot goes straight down, and the ribbons and bow have 45-degree edges. Print in red or green, or swap to gold or white at the ribbon layers.

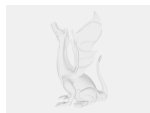

- Bambu Studio: 1 h 12, 42 g.

CUSTOMIZE (OpenSCAD)

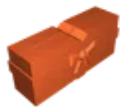

Card width, slot width and box height.
