Summary

This is a replacement cover for under the front of the reciprocating saw.

Tags: [tools](#) [harborfreight](#) [replacementparts](#) [chicagoelectric](#)

These inexpensive saws usually have a rubber-sleeved fore-grip and under it is a thin plastic shell that gives it a comfortable shape. My saw is so old that the plastic shell crumbled inside the rubber sleeve.

This is a basic replacement since the original plastic shell is a complicated shape.

Feel free to re-mix this to make it nicer/fancier.
