Bring some Christmas magic to your holiday shopping with the Snowflake Tap to Pay Wand!

Designed with an easy print in mind, there are no color changes and it can be printed without ams.

Each piece prints separately. Snap the snowflake down over the nub on the wand face, remove the tiny support under the large gem and snap it on top. Each gem has a slightly recessed slot to ensure uniformity. Apply adhesive to each piece as you put it together.

Then just slide your card into the slot, screw on the handle, and tap to pay!
