Summary

The third part of the project Space, dealing with the Space Shuttle Booster

[Learning](#) > [Physics & Astronomy](#)

Tags: [space](#) [rocket](#) [tank](#) [orange](#) [external](#) [booster](#)
[solid](#) [shuttle](#) [srb](#)

This is the third part of the Project Space in which I would like to show the whole lifespan of the Space Shuttle,

In the third part, we will take a look at the Booster - Solid Rocket Boosters and the External Tank

The models come with the color code:

b - Black

w - White

s - Silver

g - Gold

If the model does not have those codes in the name, it means, the color is irrelevant.

If any model needs to be printed more than once, the amount is indicated in the name of the model.

For the assembly guide, please watch the following video:
