I dunno about you, but it bugs me trying to measure out amounts of my Seachem liquid products using the cap. 3ml pipettes are much preferred and I got sick of misplacing them after measuring an amount from my Seachem bottles. So, I present to you, 3ml pipette holders!

Models designed to worl with these pipettes: [Zkupanx 20-Pack 3mL Disposable Plastic Dropper Pipettes for Resin & Oils | Graduated Eye Droppers for Liquids, Essential Oils, Crafts, Labs & Perfume, Accurate 3ml Pipettes, Easy Squeeze, Disposable: Amazon.com: Industrial & Scientific](#)

Printed with standard PLA, no fancy settings. I wouldn't recommend brims unless you're having adhesion issues.
