Summary

He-Man, STL and coloured OBJ. 130 mm tall, scales cleanly, supports recommended.

Toys & Games > Action Figures & Statues

He-Man, a collectible figure modelled for FDM printing and supplied ready to slice.

The mesh comes in two files: an STL, ready for any slicer, and an OBJ that keeps the colour of each vertex, for whoever wants to paint it or take it into another program.

The figure is 130 mm tall as supplied and scales cleanly. A 0.2 mm layer height with two walls gives a clean surface and PLA prints it well. Supports are recommended for the overhangs.

It works as a desk figure, a shelf piece or a small gift.

Usage & Links

Personal use: print freely.

Commercial/digital redistribution is only allowed with a valid Patreon license: https://www.patreon.com/Marjers

Portfolio at https://marjers.com/

Tools I use:

Acrylic paint pens for painted models, blade cutters for filament cutting, and a sander for, well, sanding.

MEEDEN Acrylic Paint Markers, up to 12% OFF, use code MARJERS: https://go.meedenart.com/4xBJqtc

Got thoughts, ideas, or suggestions?

I'd love to hear from you!

Whether it's feedback on the design, suggestions for improvements, or just a quick note to say hi, feel free to share in the comments.

Also, I'm always super curious to see how these prints turn out in the wild!

If you print this model, please upload a photo of your result. Not only does it inspire others in the community, but it also helps me see the variety of ways my designs come to life in your hands.

Can't wait to see your version
