Printing tips

PLA

No Support :

Only the Pumpkin needs supports, and **they're already built** into the Pumpkin_WITH Support (test **only with PLA**): →

Otherwise, you can **add your own supports** to the Pumpkin_WITHOUT Support

Brim: **Optional**

Colors, I printed :

- the Pumpkin, the Pumpkin Cover and the Mechanism in **orange**
- the Spider in **black**
- the Stem in **green** (but you can also print it in **black**)

I ran out of orange filament, so I replaced it with red for the tutorial.

Happy printing !!

Do you like this model ? **Please post a "Make"** and check out **my other creations !!**
