Brick Man Toilet Paper Holder remix by Johnny Solutions
The main reason why I have made this remix is that I am not allowed to drill the new holes in the wall so I had to use existing ones with the 137,8mm distance between them. That reflected to increasing the model scale to 125% and redesigning the wall mount system.
So I redesigned the torso and a wall mounting bracket with multiple holes for more mounting options.
The result is a simple solution and makes the model 100% flushed to the wall.
Also I've made a pole with the stud on top.
Two versions of torso available, plain and with Johnny Solutions logo
Bracket, insert pin and face printed in generic silver PETG, the rest of the model printed in BambuLab white marble PLA (I wanted to get the statue look)
This remix DOES NOT include the brick stud file, you have to

download it from:
https://www.printables.com/model/111317-oversized-lego-stud

This remix is based on

None

Oversized Lego Stud
