Bring a spine-chilling touch of horror to your Halloween decorations! This detailed 3D model features a classic carved pumpkin revealing an uncanny catacomb of intricately stacked skulls inside, centered around a main screaming skull. Designed for smooth 3D printing and maximum aesthetic impact, it makes a perfect centerpiece, desk decor, or seasonal gift.

Pre-colored 3mf file with separate stem.

The stem is a separate part which has to be printed separately and glued to the pumpkin.
