

Glowing Wobbling Ghost

[VIEW IN BROWSER](#)

updated 22. 10. 2026 | published 22. 10. 2026

Summary

A 20 cm tall translucent ghost that floats on a hidden spring base and lights up from an LED tea candle tucked inside

[Costumes & Accessories](#) > [Other Costume Accessories](#)

A GLOWING, WOBBLING GHOST!

This spooky little ghost doesn't just float... **it glows!**

The top translucent ghost piece sits above a secret elevated spring base, giving it that gentle haunted wobble.

Inside the lower platform, you'll find a dedicated cavity sized for a small LED tea candle — drop one in and watch your ghost light up like it's powered by pure Halloween mischief.

GLOWS!

WOBBLES!

**SPELLS
GOOD VIBES!**

FINAL ASSEMBLY

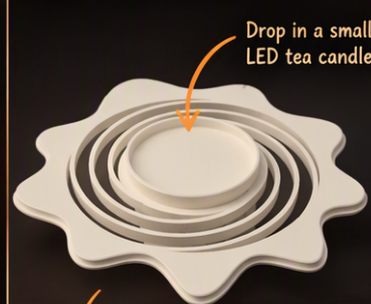

BOTTOM VIEW (INSIDE GHOST)

Elevated spring base
for that perfect wobble!

SPRING BASE (TEA CANDLE CAVITY)

Drop in a small
LED tea candle!

Built-in spring adds
a gentle, playful wobble.

LIGHT UP THE MISCHIEF

Print the ghost in a white or clear filament for maximum glow-through, pop the spring assembly together, and enjoy a floating, flickering spirit that looks right at home on any Halloween shelf, candy station, or eerie corner of your house. It's simple, fun, and guaranteed to get at least one "How is it floating?" from your guests.
