Discreet Stash Knob

Turn your Thrustmaster TH8S shift knob into a discreet storage compartment for small valuables!

The **Discreet Stash Knob** is a 3D-printable replacement knob featuring a hidden storage space inside. It can hold small valuables such as cash, jewelry, USB flash drives, and other compact items, keeping them out of sight while maintaining the appearance of a regular shift knob.

Features

- **Hidden storage:** A concealed compartment for cash, jewelry, USB drives, and other small valuables.
- **Designed for Thrustmaster TH8S:** Made specifically for the TH8S shifter.
- **Easy to print:** Designed to be printable on virtually any standard 3D printer.
- **No assembly required:** Print the parts and start using your knob

without additional assembly.

- **Practical and discreet:** Combines everyday functionality with a hidden storage solution.

A simple way to add a little extra functionality to your sim racing setup while keeping your small valuables discreetly stored.
