Bring a spooky Halloween glow into your home with this Halloween Skull LED Tealight Holder!

Each design features a charming Halloween character perched on a spooky skull. The skull is completely enclosed at the top, allowing the LED light to shine beautifully through its eyes, nose and mouth.

Because the LED tealight is inserted from underneath, the light stays contained inside the skull, creating a brighter and more dramatic glowing effect—even when the room isn't completely dark!

Twist-Lock Bottom with Light Tube

Every model includes a Twist-Lock Bottom with an integrated Light Tube.

The bottom is designed to accommodate LED tealights with a diameter of 37.2 mm (1.46 in).

The integrated Light Tube helps keep the LED tealight centered, hides the light from direct view and creates a softer, warmer glow.

Simply insert the bottom into the skull and twist it into place.

LED tealights with a remote control or built-in timer are especially convenient, as they can be operated without removing the bottom.

For easy access & for other size tealights: you can also leave the Twist-Lock Bottom off and place the skull directly over a suitable LED light.

⚠ LED tealights only. Never use real candles or open flames.

Features

- Spooky skull with a charming Halloween character
- Fully enclosed top for a brighter lighting effect
- Glowing eyes, nose and mouth
- Twist-Lock Bottom with integrated Light Tube
- Compatible with various LED tealights
- Designed for FDM 3D printing
- Perfect for Halloween decorations, spooky displays and seasonal gifts
