

Functional Feather fan

DVD CARA

[VIEW IN BROWSER](#)

updated 20. 10. 2026 | published 20. 10. 2026

Summary

Fan in the shape of black feathers, no supports needed, but some glue may be.

The model is very intuitive, you just need to print the feathers and attach them in order, the pin doesn't click on its own, I soldered it with a 3D pen, but if you don't have one you can just use glue or even hit it with a lighter carefully, it should hold on. :)

Pd. If you want more feathers you can always make a longer pin, each feather is 3mm thick.
