Summary

A bunch of different holders for various items you would need for printer maintenance and print processing.

[3D Printers](#) > [Accessories](#)

Tags: [holder](#) [hook](#) [skadis](#) [isopropylalcohol](#)
[printermaintenance](#)

These are a few models that I created to hold the things I need to service my 3D printers.

There are currently 4 holders, one for a bottle of 99% Isopropyl alcohol (Amazon), a hook for microfiber cloths, a rack for allen keys (Specifically the ones that come with Ender 3s), and a Noclogger Glue holder (That stuff smells horrible)

Their not perfect, tinkercad does not have fillets or champfers, they still work though.
