Kit Card of BD-1 droid from the Star Wars: Jedi Fallen Order video game. Originally designed for Loyal Moses's Twitch stream and now available to everyone just in time for Star Wars Day 2022!

NOTE: Parts A, B, L, M, R, & T print the clips with the layers lines horizontal which can make them weaker depending on the filament used. It is strongly encouraged to use extra perimeters and extra infill on at least these parts to minimize the chance of the clips breaking.

- Individual parts are included so you can print the model without the sprue to save plastic if desired.
- A pdf of instructions is included to print and hand out with the cards if they are given as gifts or stocking stuffers.
- A “booklet” version of the instructions is also included to print double-sided (flipping on the long edge), fold in half and then staple together for easier gifting.
- Good bed adhesion is a must for the details to print properly.
- 3mf and stl versions are included for your preference and are identical.

Don't forget to post your makes!
