Summary

Mount for EBB36 for A4T with WWBMG extruder and PUG mount. With additional mounting point for Vitalii3d CNC carriage

3D Printers > Voron Parts & Upgrades

Tags: pug cnc carriage ebb36 a4t wwbmg vitalii3d

This is a remix with an adjustment to the lower mounting point to fit https://vitalii3d.com/products/xol-a4t-mount-for-voron-printers

You still need the pug front clip from the original model. For me a M3x20 SHCS screw worked well for the lower mounting point.

This remix is based on

Tucked WWBMG-4AT PUG mount
