Marshal Viktor Von Glass is a rare bridge between the suicidal stoicism of the Death Korps and the calculated logic of the Mechanicus. He is seen wearing a specialized gas mask integrated with vox-emitters, allowing his voice to carry like a tectonic shift over the roar of artillery. His greatcoat is woven with micro-mesh armor, stained with the rust of a dozen toxic worlds but still bearing the immaculate gold trim of high Imperial office. Known as the "Iron Specter," Von Glass does not command from the rear. He is often found standing atop a moving M60-Ultima tank, directing fire with cold precision
