Playful Cat Wall Art – Light Switch Decoration

Add a playful touch to your home with this charming cat-themed WallArt!

Two curious black cats interact with a light switch, creating a fun and eye-catching decoration for cat lovers. One cat stretches up toward the switch while the other watches from above, turning an ordinary wall into something special.

Perfect for living rooms, bedrooms, hallways, offices, or anywhere you want to add a little feline personality.

Features

- Unique cat silhouette design
- Minimalist black-and-white look

- Perfect for cat lovers and modern interiors
- Designed for 3D printing
- Can be scaled to any size you prefer. Larger sizes generally make the design and details look even better.

Recommended Print Settings

- **Layer Height:** 0.28 mm
- **Wall Loops:** 2
- **Infill:** 15%
- **Supports:** Not required for a flat WallArt print
- **Material:** PLA or PETG GF

Printing Tips

Print the model flat on the build plate for the best surface quality. A matte black filament creates a beautiful silhouette effect against a light-colored wall.

Depending on your light switch design and local installation requirements, make sure the decoration does not interfere with operating the switch.
